**TELESFORO FP
INSTITUTE**

Higher Vocational Training
in DAW (Web Application
Development) - (1st year
completed)

**IES LA MATANZA DE
ACENTEJO**

High School completed

PROFILE

Web Development student with initiative, focused on continuous learning and passion for technology. I easily adapt to new environments. Team player with a strong commitment to constant learning. Interested in programming, digital economy, blockchain technology, among many other things. Committed, curious, and highly motivated to advance.

EXPERIENCE

INTERNSHIP AT PROMINEO STUDIOS

Participated for one month as a web developer in training, collaborating on projects and expanding my programming knowledge. I learned about teamwork, development methodologies, and project management. (JUN 2025)

ASTROPI PROJECT (ESA)

Participated along with two classmates in the European AstroPi (ESA) project, where we developed a solution in Python to recycle ambient gases, which was executed at the International Space Station (ISS) using a Raspberry Pi. The project was evaluated and approved at an international level. (JUN 2025)

ORAL PRESENTATION TO 60+ PEOPLE

Presented the AstroPi project to an audience of approximately 60 people of all ages. Explained the methodology, development, and purpose of the experiment. This experience strengthened my communication skills, confidence in public speaking, and teamwork. (JUN 2025)
